We see them every day—in our homes, on TV, out in the street. They’re the famous logos of the brands we’ve come to know and love. These logos not only accurately represent the famous brands they’re attached to, they’ve become a part of our shared pop culture. Heck, someone even made a short film with logos and mascots comprising all of the characters, props and scenery. Logos are practically ...

White and gray indicate a neutral wire. White is the color most often used for this function. A neutral wire connects to the neutral bus bar within an electric panel. (A bus bar is made of conductive metal that attracts the electric current for distribution outward to feeders.) You can connect white and gray only to other white and gray wires. Although neutral, they can still carry current ...
